

Simon says **PLAY JAZZ!**

with *Smartmusic

Enroll in Simon Austin's *Smartmusic (online music lessons) and do each proficiency. Work with *Smartmusic at your own pace. Your results earn ratings and awards depending on when and how you submit your results. In any case, you develop skill as a jazz musician beginning with level 2 of 8 levels of assignments. Any Jazz Musician can assist you with acquiring knowledge and developing skill at the low levels but only jazz masters can help you at the high levels. That means when you're at the highest level, Simon says, "you're a jazz master!"
